

João Pedro Carvalho

Full-Stack Web Developer & Data Analyst

São Paulo, Brazil · jpfonsecaalves2007@gmail.com · (12) 99102-6455 · [linkedin.com/in/joaopedro2007](https://www.linkedin.com/in/joaopedro2007) · github.com/Joaopedro0s · joaopedro0s.github.io/Portfolio

PROFESSIONAL SUMMARY

Systems Analysis and Development student (SENAI Taubaté) with hands-on experience in full-stack web development (PHP, JavaScript, SQL) and data analysis (Python, Excel, Power BI). Shipped six complete projects, including a gamified learning platform built as a capstone project and an award-winning machine learning pipeline. Completed 28 certifications, including the IBM Data Analyst Professional Certificate.

PROFESSIONAL EXPERIENCE

Systems Development Apprentice — Iochpe-Maxion

Cruzeiro, SP · Feb 2024 – Dec 2025

- Developed and shipped web systems and internal tooling for production and administrative teams, across the full cycle from requirements to production deployment.
- Designed database structures and features on demand for day-to-day operations.

IT Intern — UNISAL

SP, Brazil · Dec 2023 – Feb 2024

- Provided technical support and kept the computer lab fully operational.
- Set up environments and maintained the machine fleet.

Administrative Assistant — Ascontec

Mar 2023 – Dec 2023

- Maintained and updated administrative spreadsheets in Excel — first hands-on exposure to data analysis.
- Organized vehicle entry/exit documentation and cross-department workflow.

FEATURED PROJECTS

K4Math (capstone project, SENAI Cruzeiro) — Gamified math learning platform in PHP, MySQL and JavaScript — 4 thematic units, 19 lessons, 76 exercises.

FPD Risk Model — Machine learning pipeline in Python (LightGBM, SMOTE, Optuna, SHAP) built in a 48-hour hackathon; ROC-AUC of 0.796 — 3rd place at Science & Business, PIT São José dos Campos.

Relational Database Design — Designed and normalized 3 relational schemas (EduCash, K4Math, Loja Real) in MySQL and SQL Server, including stored procedures, triggers and reporting queries.

Web Platforms — 4 sites shipped to production (HTML5, CSS3, JavaScript, Bootstrap, Tailwind), including e-commerce, an education portal and a conversion landing page.

EDUCATION

Associate Degree in Systems Analysis and Development

SENAI Taubaté · 2026–2027 (in progress)

Technical Degree in Systems Development

SENAI Cruzeiro · 2024–2025 (completed)

AWARDS

- 1st place — Hackathon API Edition, SENAI Cruzeiro
- 3rd place — Hackathon Science & Business, PIT São José dos Campos (2026)

CERTIFICATIONS

- IBM Data Analyst Professional Certificate — IBM / Coursera, 2026 (9-course track)
- AWS Cloud Practitioner Foundation — AWS
- AI Solutions with GitHub — GitHub
- Data Analysis with Power BI — Fundação Bradesco
- Data Privacy and Protection (LGPD, Brazil's data-protection law)
- + 23 more certifications and 24 Microsoft Learn badges — full list on the portfolio.

TECHNICAL SKILLS

Languages & Front-end: JavaScript, PHP, Python, HTML5, CSS3

Databases: MySQL, SQL Server, T-SQL, Relational Modeling

Data & BI: Power BI, Looker Studio, Excel (Pivot Tables, Power Query)

Tools & Automation: Git/GitHub, REST APIs, n8n, Supabase

Languages: Portuguese (Native), English (Intermediate)
